Subject: OFFICIAL IFATSEA COMMUNIQUE: UNCRUPULOUS FACEBOOK ACTIVITY

Our attention has been drawn to an online Facebook activity with intemperate and denigrating language on the Executive Board by an unscrupulous person suspected to be a hacker.

We are by this urging the entire ATSEP community to disregard the post on the supposed IFATSEA Facebook account for which the executive board is unable to have access and treat it with the contempt that it deserves. Consider the post fake!

We have reported this unscrupulous activity to Facebook and respectfully, request as many of you as possible to report the same for Facebook to take the account down.

The Executive Board is very much concerned for the inconveniences caused by such post to the ATSEP community and all other sister associations.

Steps are being taken for IFATSEA to create a new Facebook account and we will keep you posted once that is completed.

In the meanwhile, IFATSEA will only maintain its LinkedIn, You tube, X (Twitter) account and website for news and other information sharing.

Once again, we thank you for your audience and respectfully, entreat you to disregard the intemperate post on the Facebook. **IT IS FAKE!**

Ing. Frank Kofi Apeageyi
Executive Secretary

Theodore Kiritsis
President
